BTS Software Solutions Plans Office in Downtown Gallipolis

The innovative software and services company expands rapidly with a new office in Gallipolis, Ohio.

Gallipolis, OH— Today, [BTS™ Software Solutions](#), a cutting edge technology company that provides advanced software features and telecommunications mission management capabilities to government customers, announced their plans to open a Gallipolis office in March 2012. The company, a subsidiary of BTS Corporation based in Maryland, expanded to Ohio in the effort to improve the technology economy in and around Gallipolis, BTS CEO Sean Lane's home town.

"We are happy that Sean has chosen to bring his successful business ventures and philanthropic ideas back to the Gallipolis area," said County Commissioner Joe Foster. "The jobs that are created, businesses that are incubated, and minds that are developed will certainly have a positive long term effect on our economy and community."

The office is located in the First National Bank building on Second Avenue and will likely hold at least 20 full-time employees by the end of the year. It will be managed by Gallipolis resident Jodie McCalla, who previously worked on intelligence initiatives for the U.S. Government, and Brian Ratliff, a Gallia County native currently based at BTS Software Solutions in Baltimore, Maryland.

"I chose to start BTS in Maryland because I see great potential in the region's workforce and economy," said BTS Software Solutions President Sean Lane. "I also see that capacity in Gallia County and I am extremely excited to launch BTS Software Solutions, among other initiatives like the Digital River Project, to improve the innovation economy in my hometown."

BTS Software Solutions has a staunch dedication to Gallia County's economy and ecosystem to support the recruitment of high tech industry. The Digital River Project, directed by local community members with the help of Sean Lane, will work to foster a culture of innovation, technological advancement, and entrepreneurship in Gallia County. The project, sponsored by BTS Software Solutions, plans to provide free public WiFi in the Gallipolis City Park by summer 2012.

BTS is a trademark of BTS, LLC.

About BTS Software Solutions
